

Kwik Trip History

- May 1965, first store opened in Eau Claire
- Currently over 400 locations

First Kwik Trip Store • Eau Claire, WI

Kwik Trip Today

- ◉ Conventional Petroleum Products
 - > Over 100 stores with Side Diesel Canopies
- ◉ Alternative Fuels : E-85, CNG, LNG, Propane, Bio Diesel
- ◉ EV Charging Station Deployment
- ◉ Vertically Integrated
 - > Food Production, Transportation, Construction, R&M Services, and Logistics
 - > Produce or handle 80% of the items sold in our stores

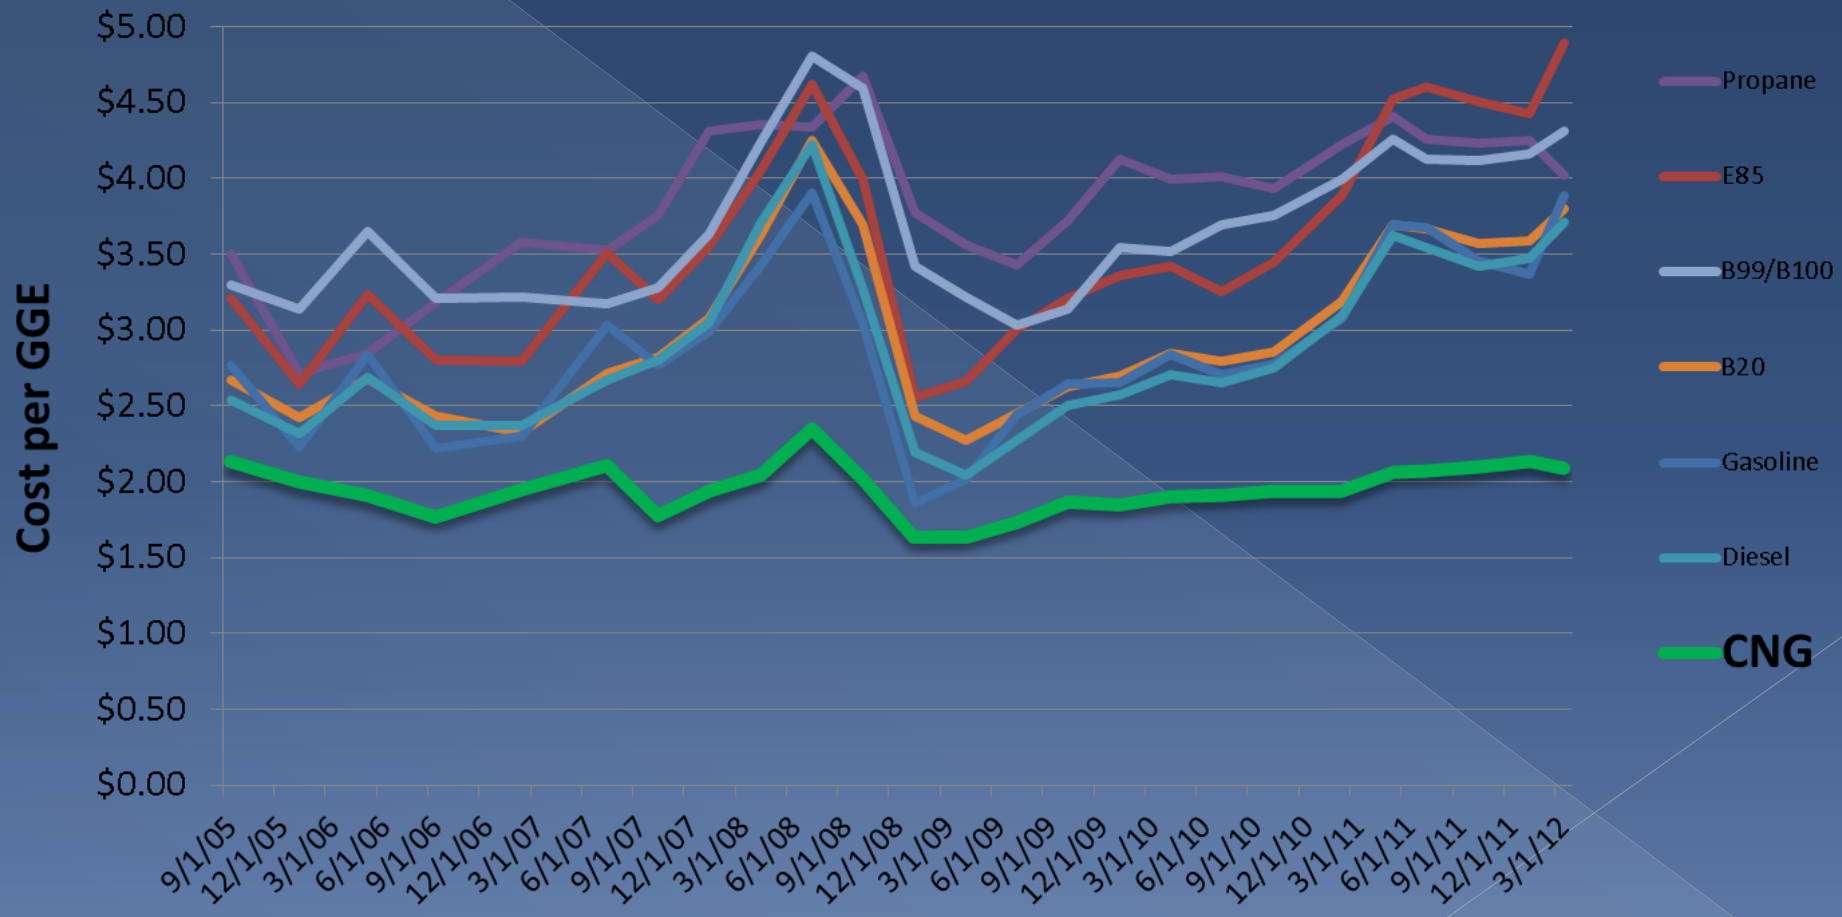

Natural Gas

Natural Gas Supply

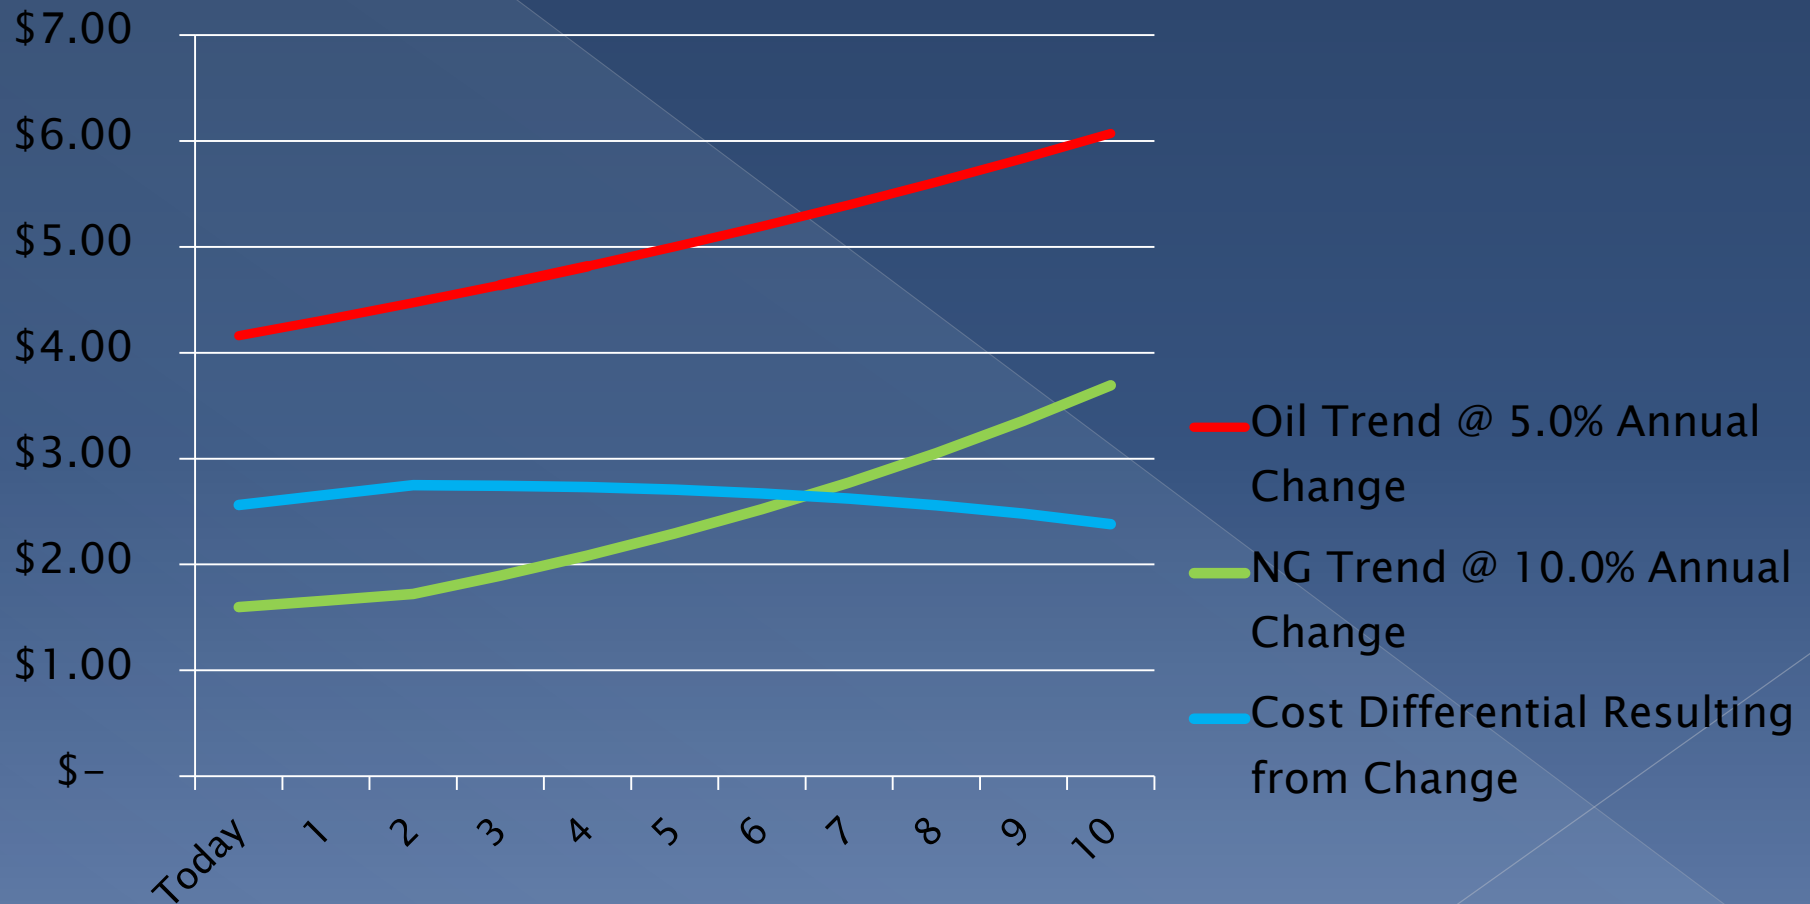

- In the past five years, shale reservoirs have revealed natural gas deposits that doubled previous estimated U.S. gas reserves
- 100 + year supply

US Average Retail Fuel Prices

Oil Up 5% /yr. – NG Up 10%/yr.

What happens if the cost of fuel Doubles?

● Diesel in Gallons

- Today's retail \$4.00 (La Crosse, WI)
- Commodity \$3.00 (variable)
- Taxes, Margin, Etc. \$1.00 (fixed)

- Commodity (x2) \$6.00
- Taxes, Margin, Etc. \$1.00

● Total Cost of Diesel

\$7.00 / Gallon

● CNG in DGE

- Today's Retail \$1.80 (La Crosse, WI)
- Commodity \$0.65 (Variable)
- Taxes, Margin, Etc. \$1.15 (fixed)

- Commodity (x2) \$1.30
- Taxes, Margin, Etc. \$1.15

● Total Cost of CNG

\$2.45 / DGE

Kwik Trip Natural Gas Program

Kwik Trip Natural Gas Program

- ◉ Kwik Trip committed time to researching each of the following fuels:
 - > CNG
 - > LNG
 - > Propane
 - > Biodiesel
 - > E-85
- > All of these products are available at Kwik Trips Alternative Fuels Fueling Station in La Crosse

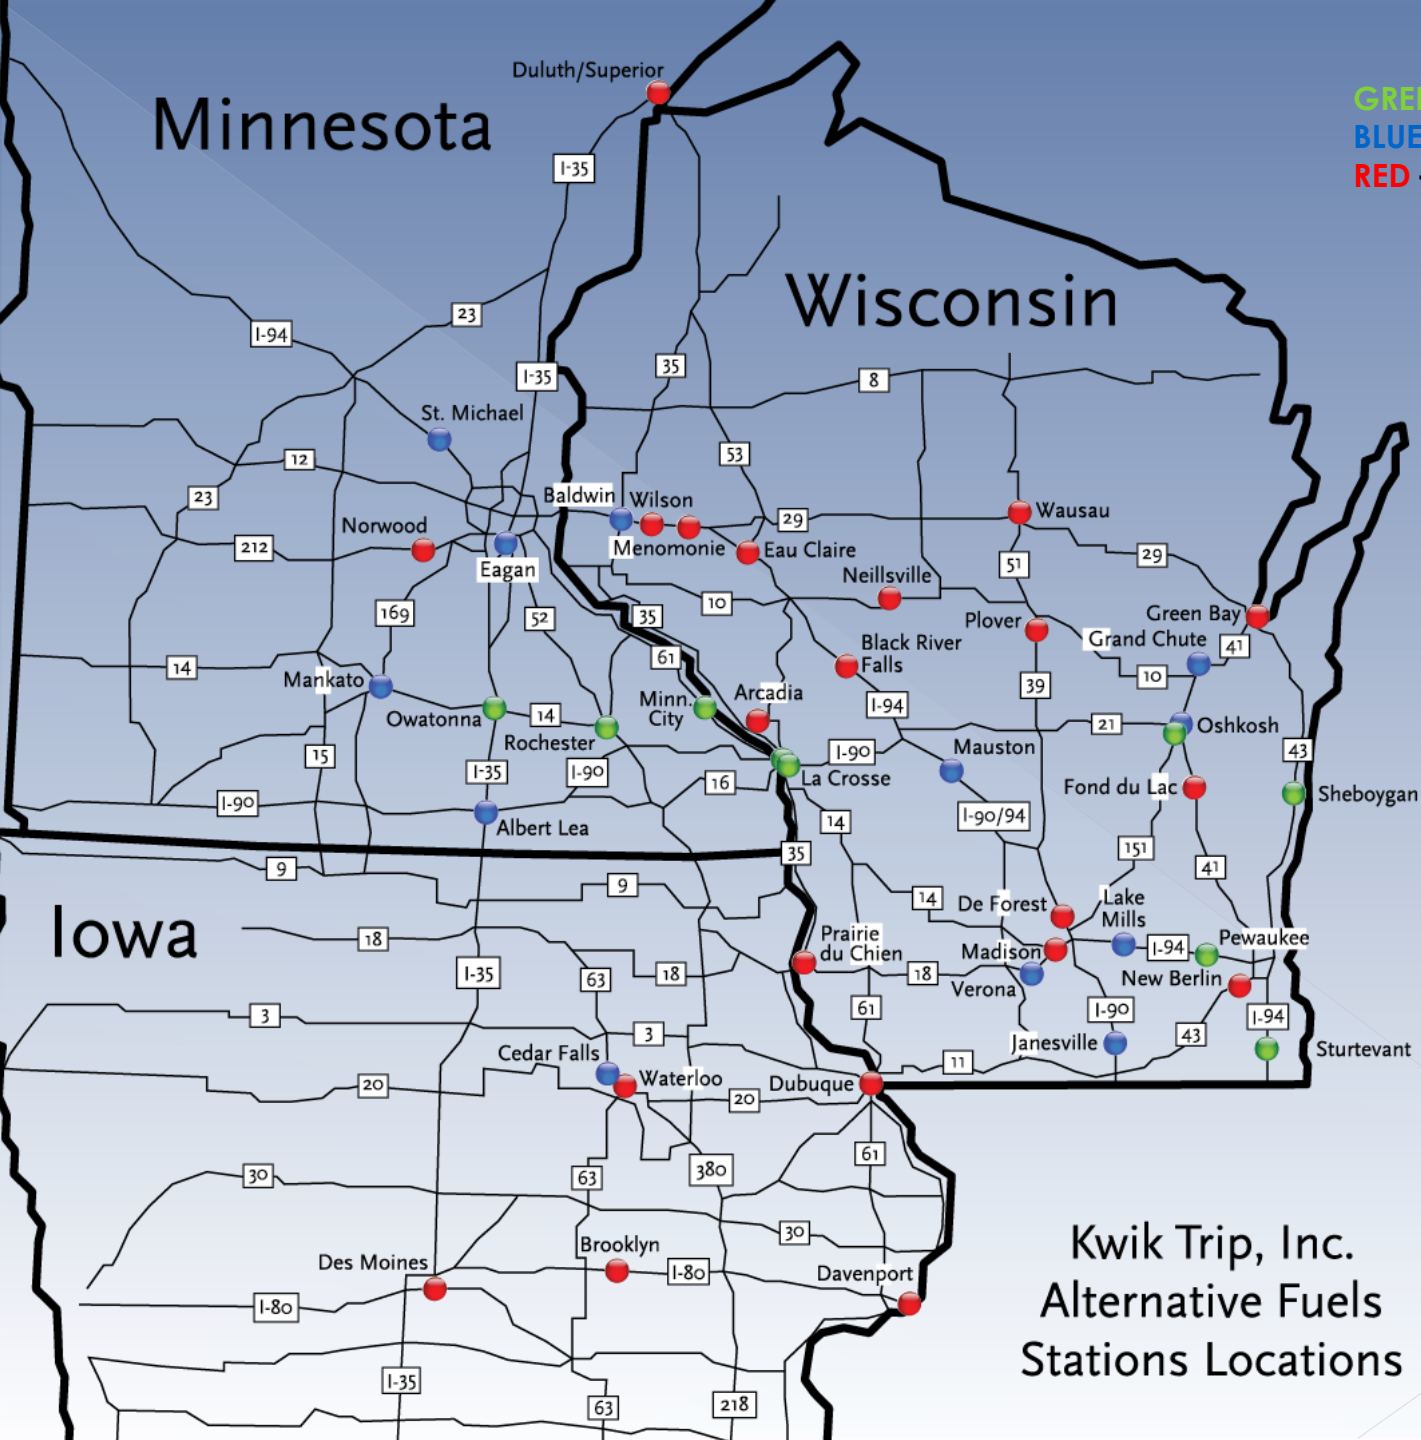

Alternative Fuels Fueling Station

Retail CNG Fueling Experience

GREEN – Current Stations
BLUE – 2013 Spring Builds
RED – Markets Being Researched

Natural Gas Fleet Solution

Heavy Duty - 34

- Volvo VNL ISX-G 12L (CNG)
- Kenworth T440 ISL-G (CNG & LNG)
- Peterbilt 384 ISL-G (CNG & LNG)
- Freightliner M2 ISL-G (CNG & LNG)
- Autocar Yard Spotter ISL-G (LNG)
- Capacity Yard Spotter ISL-G (LNG)

Yard Spotters

- Currently operating 2 LNG yard spotters and have a third unit on order.
- Operate on a 24/7 Schedule
- Cummins Westport 9L 250HP @ 850 lb. ft. Torque
- Allison MD3060 Transmission
- 100 Liquid Gallon LNG Tank / Approximately 50 Dge.

ADVANTAGES

Emissions

2010 Compliant – Without DPF and SCR

Operational Stability

Uptime
No Need to Perform Emission System
Regens

Refrigerated Transportation

Class 8 Grocery/Zone Tractors

- Pulling Multi-temp refrigerated trailers.
- GCW – 70-80K Diminishing Load
- Operate 2 Routes per Day – Average Approximately 600 Miles Daily.
- Cummins Westport ISLG 9L 320HP @ 1000 lb. ft. Torque
- Allison MD3060 Transmission
- Fuel Storage: **LNG** - Dual 119 Liquid Gallon / **CNG** - Dual 45.5 Dge Tanks

Class 7 Fresh Delivery Trucks

- Currently operating 2 CNG and 1 LNG.
- Fit with Multi-temp refrigeration.
- Operate Daily – Average Approximately 290 Miles/Day.
- GVW – Up to 46K Diminishing Load
- Cummins Westport ISLG 9L 320HP @ 860 lb. ft. Torque
- Allison MD3060 Transmission
- Fuel Storage: **LNG** - Dual 119 Liquid Gallon / **CNG** - Dual 45.5 Dge Tanks
 - Diesel – Currently Required for the Refrigeration Unit – for now.

Bulk Transportation

Petroleum and LNG Transport

- 9700 gallon MC406 Tank Trailers.
- GCW – 50% Loaded @ 80K – 50% Empty @ 25K
- Operate 24/7 – Average Approximately 800 Miles Daily.
- Cummins Westport ISLG 9L 320HP @ 1000 lb. ft. Torque
- Allison MD3060 Transmission
- Fuel Storage: **LNG** - Dual 119 Liquid Gallon / **CNG** - Dual 45.5 Dge Tanks

New LNG Technology

Spark Ignited vs. HPDI

● Spark

- > 100% NG fuel supply
- > No EPA after treatment
- > 85 – 90% efficiency
- > CNG and LNG

● HPDI

- > 5% Diesel Pilot
- > DPF, SCR, DEF, etc.
- > Compression ignition performance
- > LNG only

Power of Payback

- Spark ignited CNG
 - > \$2.00 per DGE
 - > MPdge = 5.5
 - > \$4.00 Diesel
 - > MPG = 6.5
- CNG CPM
 - > \$0.363
- Diesel CPM
 - > \$0.615
- **NG advantage**
 - > **\$0.252**
- HPDI LNG
 - > \$2.70 per DGE
 - > Mpdge = 6.5
 - > \$4.00 Diesel
 - > MPG = 6.5
- LNG CPM
 - > \$0.415
- Diesel CPM
 - > \$0,615
- **NG advantage**
 - > **\$0.20**

Thank you!
